4th INTERNATIONAL CONFERENCE

(Hybrid mode)

On

SMART-25: Sustainable Multidisciplinary Artificial Intelligence Research for Global Transformations - 2025

Accelerating SDGs through AI

Agenda: Online Session - A, Day 2 (22/11/2025)

09:50 - 10:00 Paper Presentation Morning Session- Introduction

10:00 - 10:30 Keynote Lecture 1: Mr. Rishikesan Visuvamithran

10:35 - 11:05 Keynote Lecture 2: Dr. Kalpana Kannan

11:10 - 13:05 Paper Presentation Morning Session

11:10 - 11:25	Shekhar Milind Baviskar	A review on employment of ai for sustainable building and construction
11:30 - 11:45	Dr. M. Yuvaperiyasamy	Optimization of Geopolymer Concrete Using Response Surface Approach
11:50 - 12:05	1. Dr. Shree Ram Malani 2. Dr. Shailendra Kumar	Artificial Intelligence Applications in Sustainable Building Design and Construction: A Systematic Review of Energy Performance Optimization Methods
12:10 - 12:25	Dr. M. Yuvaperiyasamy	Microstructural Characterisation of Alkali-Activated Geopolymer Binder System for Sustainable Environment under Ambient Curing Condition
12:30 - 12:45	1. Dr. K.R. Nandagopal 2. Srija Aksaya	Comprehensive Review of Multifunctional Basalt Fibre-Reinforced Composites: Advancements in Structural, Thermal, and Functional Materials for Engineering and Environmental Applications
12:50 - 13:05	Dr. M. Yuvaperiyasamy	Optimizing the lightweight steel fibre reinforced bacterial concrete with nanosilica and coconut shell aggregates using taguchi method

13:10 - 14:00 Lunch

14:00 - 14:20 Keynote Lecture 3: Dr. Geethapriyan Thangamani

14:25 - 16:20 Paper Presentation Afternoon Session

14:25 - 14:40	1. Chevuri Pavan Kumar 2. Dr. Asadi Siva Sankar	AI-Integrated Framework for Predictive River Pollution Modelling and Sustainable Water Management
14:45 - 15:00	1. Dr. Annie Rose Nirmala 2. Dr. Selvam Jesiah	Shifting consumer choices: polybags to eco-friendly alternatives
15:05 - 15:20	Dr. S. Kumaravel	Investigation on the Impact of Varying the Polycarbonate Glass Cover Thickness of Single Slope Solar still
15:25 - 15:40	1. Shreeyash Mhatre 2. Abhishek Mahesh	Lean Six Sigma Applications in Electrical Equipment Manufacturing: An Exhaustive Review and Synthesis
15:45 - 16:00	1. Rosy Manish Kolge 2. Mahendra Govindrao	Design and Performance Analysis of a Heat-Resistant Side-Suction MIG Welding Nozzle for Enhanced Real-Time Fume Extraction
16:05 - 16:20	1. Vasishtha Bhargava 2. Chinmaya Prasad	Effect of rotational harmonics and tilt angle on sound power from HAWT blades

16:20 - 16:40 Closing Ceremony

16:20 - 16:30	Closing Remarks by Dr. S. Joe Patrick Gnanaraj
16:30 - 16:40	Awards
