4th INTERNATIONAL CONFERENCE

(Hybrid mode)

On

SMART-25: Sustainable Multidisciplinary Artificial Intelligence Research for Global Transformations - 2025

Accelerating SDGs through AI

Agenda: Online Session - C, Day 2 (22/11/2025)

09:50 - 10:00 Paper Presentation Morning Session- Introduction

10:00 - 10:30 Keynote Lecture 1: Mr. Rishikesan Visuvamithran

10:35 - 11:05 Keynote Lecture 2: Dr. Kalpana Kannan

Paper Presentation Morning Session

11:10 - 13:05	11:10 - 11:25	1. Tirzah john j 2. Suruthi Gayathri S 3. Subhashin S 4. Amalan Richard A C	SportScout: Intelligent Web-Based Exercise Tracking and Talent Discovery System
	11:30 - 11:45	1. Benhur Lee.A.K 2. Anbumani	An Intelligent Cold Storage System for Agriculture Using IoT and Machine Learning
	11:50 - 12:05	1. Dr. Gayathri G 2. Mrs. Namratha B S	Waste Intelligent Segregation, Detection, And Optimization Mechanism
	12:10 - 12:25	1. Dr S Jennathu Beevi 2. Dr Nafeena	Automatic Generation Control in Two Area PV-Thermal Restructured Power System Using Pid and Fopid Controllers
	12:30 - 12:45	Venkateswaran Narayanan	Trigger-Free UL-OFDMA for Efficient VoIP Communication in IEEE 802.11ax WiFi Networks
	12:50 - 13:05	N. Rajasekar	Crystal Growth and comprehensive Characterization of α -Glycine Malate Crystals using XRD, FTIR, UV-Vis, and Photoluminescence Studies for Photonic and Optoelectronic Applications

13:10 - 14:00 Lunch

14:00 - 14:20 Keynote Lecture 3: Dr. Geethapriyan Thangamani

Paper Presentation Afternoon Session

14:25 - 16:40	14:25 - 14:40	Sivaraman M	Aluminum-Ceramic Composites in Biomedical Engineering: A Multifunctional Strategy for Improved Biocompatibility and Mechanical Performance
	14:45 - 15:00	Kalaimani. M	Influence of B4C and TiO2 Reinforcements on the Thermal Conductivity of Aluminum Hybrid Nanocomposites
	15:05 - 15:20	Sivaraman M	Advancements in additive manufacturing using slm and aluminium nano-ceramics, applications and optimization via taguchi method
	15:25 - 15:40	Kalaimani. M	Investigating mechanical and Corrosion Resistance in Al-SiC-ZrO2 Hybrid Composites Produced by Powder Metallurgy
	15:45 - 16:00	Rahul Singh Patel	Manufacturing Routes, Post-Processing Strategies, and Corrosion Behavior of Al 7068 Alloy: A Review on Microstructural Evolution and Stress Corrosion Resistance
	16:05 - 16:20	Kalaimani. M	Mechanical and Wear Characteristics of Al/SiC/ZrO2 Hybrid Composites Synthesized via Stir-Squeeze Casting Method
	16:25 - 16:40	1. Visaga Varshini 2. Karthik	Synergistic MoS ₂ -GQD-ZnO Multilayer Architectures for Boosted Solar Cell Efficiency: Synthesis, Characterization, and Photovoltaic Insights

Closing Ceremony

16:20 - 16:40	16:20 - 16:30	Closing Remarks by Dr. S. Joe Patrick Gnanaraj
	16:30 - 16:40	Awards
